

# Model D1

## **Dietz Differential Pressure Switch**

- Rugged flat-plate construction performs in • harsh environments
- Reliable mechanical life over millions of cycles •
- Withstands high pressure overloads without physical damage or calibration changes
- Easily adjustable actuation point •
- Minimal internal air volume allows switch to actuate • without delay
- High capacity electrical ratings
- Gold contact points available for low DC voltage and • minimum current
- Can be supplied with moisture and fungus resistant treatment •

# **Specifications**

#### **Operating Ranges:** From 0.7" to 7.0 H20

### **Construction:**

Fabricated or sheet aluminum anodized in accordance with MIL-A-8625, Type 1, Class 2

# **Electrical Ratings:**

Rated at 4 amperes, 250 volts AC, 28 volts DC, 5 amperes resistive, 3 amperes inductive

## Weight:

5 ounces

#### **Connection Options:**

Push-on connector terminals Solder type terminals Navy Type 8TB2 terminals per MIL-T-55164A

### Low Current:

Snap switches available with gold plated contacts for low voltage and current (DC) applications
